

13 January 1971

MEMORANDUM FOR: Chief, Clinical Division
Chief, Psychiatric Staff
Chief, Operations Division
Chief, Psychological Services Staff
Chief, Selection Processing Division
Chief, Support Division
Chief, Field Support Staff
Medical Systems Development Officer

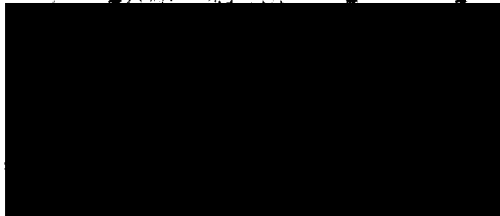

SUBJECT : Program Submission, FY 1973-1977

REFERENCE : Program Call, FY 1973-1977, dated 23 October
1970

1. It is requested that information for your division/staff for inclusion in the OMS Program Submission, FY 1973-1977 be forwarded to this office by 20 January. Part II (Progress, Objectives and Program Plans) of the referent document should be used as a guide for the kind of information needed. The Preliminary Program Review for FY 1973-1977 for the OMS which was held on 16 December 1970 with the DD/S set the general limits on resources for this five year planning period. These limits provided for certain new activities in the Health Services (Multiphasic Screening, Information Processing, etc.) and Behavioral and Social Sciences areas, but no increases in staff or contract ceilings for the planning period.

2. Your attention is invited to Colonel White's forwarding memorandum for this Program Call wherein he indicates that unlike last year (when we addressed ourselves mainly to program changes), this call requests that we describe the essential features of our on-going as well as our proposed programs.

3. Executive Staff and the Support Division are available for any assistance you may desire in this matter.

SIGNED
JOHN R. TIETJEN M.D.
JOHN R. TIETJEN, M. D.
Director of Medical Services
